

Reflect on **your** writing process. What do you hope to achieve by your writing in academia? What do you hope to achieve with in your personal or professional life, and how is writing well part of that goal? What challenges have you had with your writing? If English is your second language what challenges do you have to write in English? If, at home, another language is spoken, what challenges do you have with your writing? How have your challenges with writing changed since you were a child to now?
