

**WRITING ASSIGNMENT:**  
**Journal Article Review**

You are to complete a review of one of the papers listed below (papers can be found on Blackboard). Your review should be at least 2 pages double-spaced in length (1" margins, 12 pt. Times New Roman or Arial font).  
**DUE NOVEMBER 7 AT 8:40PM via both hard copy and SafeAssign.**

**Questions that should be answered in your review:**

**(NOTE:** these questions should serve as a guideline as to what should be in your paper. You are encouraged to add whatever relevant information/critiques you see fit.)

- What aspect of women's psychology/gender psychology does the article cover?
- Does this research look at sex (biological) or gender (social) differences?
- What was the purpose of the article (if an experimental paper, what, was the research question and what were the methods/procedures used and makeup of participants; if a review paper, what was the focus of the research reviewed)?
- What were the results found (if an experimental paper, what results did the researchers find [no statistical information necessary]; if a review paper, what was the trend of the research reviewed)?
- What were the implications of the paper (what do the results/trends indicate for application, what suggestions to the author(s) have for future research)?
- How does the paper relate to the topic of women and/or gender as we have discussed in class?
- What was your opinion of the paper (Which points of the paper did you find the most interesting? Did you agree with the findings? What are some suggestions you might have for further research?)?
