

**PSY 626 Final Project Milestone Three Guidelines and Rubric**

**Prompt:** For this milestone, take the case report from PSY 622 and develop part VII of the final project:

VII. Treatment Strategies

- A. Discuss the **efficacy** of treatment strategies appropriate for this particular client.
- B. How do classic and contemporary psychology **theories** support these conclusions?

Make sure this section of your assessment reflects the most current in clinical practices. You will also want to take into account ethical practices and the roles that may be taken by any individuals involved in the treatments. Remember to consider who hired you (the law firm in the final project) and, therefore, to whom you are responsible to disclose information.

**Guidelines for Submission:** You should submit a well-developed and theory based treatment strategy for the case study client from PSY 622. Your paper must be submitted as a 2–3 page Microsoft Word document with double spacing, 12-point Times New Roman font, one-inch margins, and sources cited in APA format.

Critical Elements	Exemplary (100%)	Proficient (90%)	Needs Improvement (70%)	Not Evident (0%)	Value
<b>Treatment Strategies: Efficacy</b>	Meets “Proficient” criteria and uses industry-specific language to establish expertise	Clearly and completely discusses the efficacy of treatment strategies appropriate to the client	Discusses the efficacy in a very brief and cursory way, or selects treatment strategies that are not appropriate to the specific client	Does not discuss the efficacy of treatment strategies	28
<b>Treatment Strategies: Theories</b>	Meets “Proficient” criteria and discussion draws insightful connections between theories and the practice of forensic psychology	Clearly supports discussion of treatment efficacy with classic and contemporary psychology theories	Supports discussion of treatment efficacy with classic or contemporary psychology theories, but not both, or a very brief and cursory way	Does not support treatment efficacy discussion with psychology theories	19
<b>Treatment Strategies: Ethics</b>	Meets “Proficient” criteria and uses industry-specific language to establish expertise	Discusses ethics appropriately as they apply to the treatment strategies selected	Discusses the ethics of identified treatment strategies, but only in a very brief and cursory way	Does not discuss the ethics of identified treatment strategies	19
<b>Treatment Strategies: Comprehensiveness</b>	Meets “Proficient” criteria and cites specific research for the choices made	Proposes a comprehensive treatment strategy that meets all of the clients’ needs	Proposes a comprehensive treatment strategy, but not one that is appropriate for the specific client, in whole or in part	Does not propose comprehensive treatment strategies	19
<b>Articulation of Response</b>	Submission is free of errors related to citations, grammar, spelling, syntax, and organization and is presented in a professional and easy-to-read format	Submission has no major errors related to citations, grammar, spelling, syntax, or organization	Submission has major errors related to citations, grammar, spelling, syntax, or organization that negatively impact readability and articulation of main ideas	Submission has critical errors related to citations, grammar, spelling, syntax, or organization that prevent understanding of ideas	15
<b>Earned Total</b>					<b>100%</b>
